& Intelligence
House Space, Science, and
Technology Committee
Subcommittee on Research and
Technology

March 18, 2026

The Honorable Tom Cole
Chairman
Committee on Appropriations

The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting \$424,800 for the Thomas Street Stormwater Treatment and Control project in Fiscal Year 2027. The entity to receive the funding for this project is the Town of Frederica, located at PO Box 294, 2 West David St., Frederica, DE 19946.

The funding would be used to construct a stormwater treatment basin and install conveyance infrastructure to remove sediment and improve water quality before managing runoff from a chronically flooded neighborhood that currently lacks stormwater infrastructure.

This project is an appropriate use of taxpayer funds because it invests in durable infrastructure that addresses water quality at the source while also resolving chronic flooding that has affected the neighborhood for more than a decade.

The project has a Federal nexus because the funding provided is for purposes authorized within the Clean Water Act, 33 U.S.C. 1383(c) (Section 603(c) of the Clean Water Act).

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

A handwritten signature in blue ink, appearing to read 'S. McBride', written in a cursive style.

Sarah McBride
Member of Congress
